The problem

Sound familiar?

The most common problems we see on creator and business pages.

1 lakh+ followers. Views used to be 50K — now 3–4K.

VIEWS

I post regularly. Enquiries and sales don't come.

BUSINESS

One Reel eats 3–4 hours of editing.

TIME

Brand deals come once in a while. Never steady.

BRAND DEALS

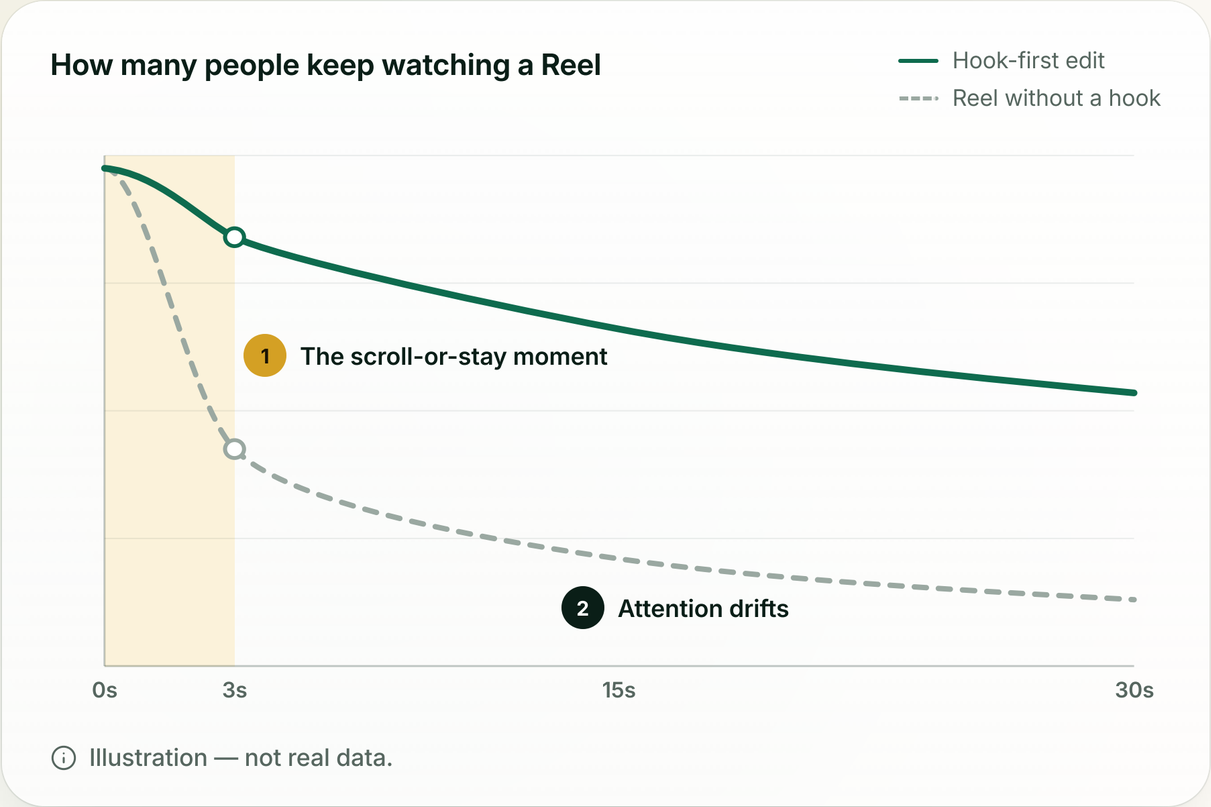

I don't know what to post — or what NOT to post.

DIRECTION

→ If even one of these is you, the next two slides show why it happens.

Diagnosis 1 · Views

Views don't stall by accident. They leak in four places.

01 The first 3 seconds

No clear hook on screen — or the same old hook style your audience has learned to scroll past.

02 The middle

Slow intros, no captions, no cuts. Many people watch on mute, so attention drifts.

03 The topic

Random posts. Without a clear “what to post vs. what NOT to post”, Instagram can't tell who your Reels are for.

04 The rhythm

Editing takes hours, so posting turns irregular and your audience drifts away.

Diagnosis 2 · Business

Views alone don't pay.
The road to business is broken.

01
Views
People see you.

×

02
Trust
They follow, save and come back.

×

03
Action
They DM, comment, book or buy.

×

THE GOAL
Business
Enquiries, sales and brand deals.

Your niche isn't clear
No clear niche or positioning in your bio and Reels.

No clear next step
Reels end without asking people to comment, DM, book or buy.

Brands can't see your value
No media kit, no rate card, no clear audience story.

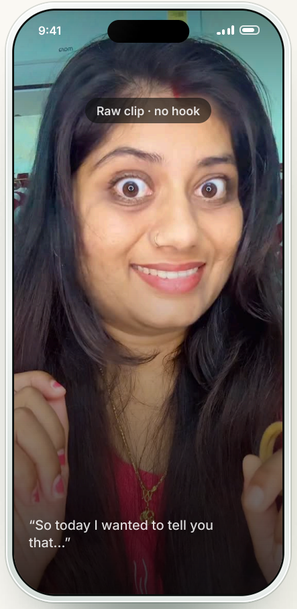

→ For creators, the goal is steady brand deals; for doctors, coaches and brands — patients, students and customers. Not just views.

The fix

You record. We do the rest.

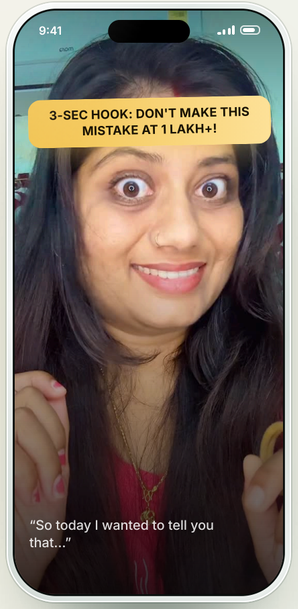

We send the script, you record one clip, and four steps later it's ready to post — in Hindi, Hinglish or English.

Illustration — a mock-up using a founder photo, not a real before/after.

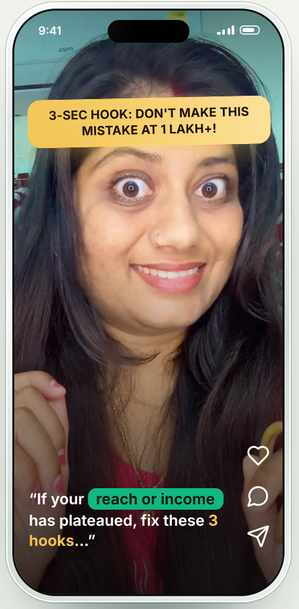

01 Record

Record the script we send you — on your phone, about 30–60 minutes a week. Send it on WhatsApp.

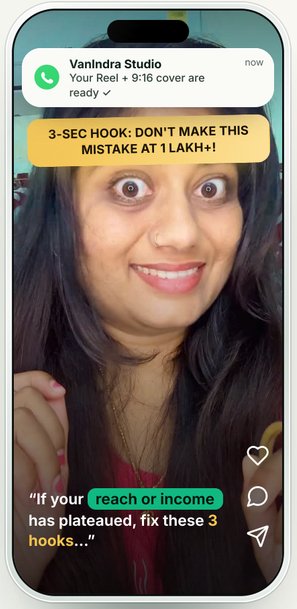

02 Hook

We put a scroll-stopping hook on screen in the first 3 seconds.

03 Edit & captions

Fast cuts, bilingual captions, clean audio and a 9:16 cover.

04 Ready to post

Back on WhatsApp. First edit within 48 working hours of receiving your footage.

What we handle

Every leak has a fix.
Here's exactly what we do.

WHERE IT LEAKS	WHAT WE DO	WHAT YOU GET
The first 3 seconds	**Hook-first scripts**	Every script opens with a hook in the first frame — in Hindi, Hinglish or English.
The middle	**High-retention editing**	Cuts every few seconds, bilingual captions, clean audio and a 9:16 cover.
The topic	**What to post, what NOT to**	A 30-day content calendar, reviewed by founder Vandana Yadav.
The rhythm	**Weekly scripts + edits**	Consistent Reels, while you record only about 30–60 minutes a week.
Views → business	**Clear CTAs + positioning**	A next step in every Reel; media kit, rate card and brand pitching in Pro Growth (no guaranteed deals).

Human-checked

AI helps with research and first drafts; our team rewrites, edits and approves every Reel. Health claims are checked against a source, and nothing is final without your approval.

Proof

Real accounts.
Check them yourself.

Start free

Don't judge us by slides.
Judge us by your own video.

₹0 to start. No payment before you've seen your sample.

1. Send one recent video and your Instagram handle on WhatsApp (send it as a Document so the quality stays sharp).
2. We audit your page and edit 15 seconds of your video — back within 2 working days.
3. You decide. No payment, no obligation.

Free page audit

What's working on your page, what to stop posting, what to post next, and 3 hook ideas for your niche.

Back on WhatsApp within 2 working days of your video.

Free 15-second sample edit

We re-edit 15 seconds of your own video — hook, captions, pace — so you see the difference before you pay.

We only edit videos you send us yourself, and we never post them anywhere without your written OK.

Packages
